

XULTAN 5.5

Pedicle Screw System

FEATURES

- Double-lead thread to help speed insertion.
- Unique Cortical-Cancellous thread design to better match the cortical bone of the pedicle and cancellous bone of the vertebral body.
- Reverse-angle thread on set screw to help prevent head splay.
- Complete array of screw sizes from 4.5 to 8.5 mm in diameter.
- Ergodynamic-quality instrumentation designed to reduce time needed for screw insertion.
- Variety of screw types to handle most surgical situations: solid, cannulated, and reduction screws.
